COUNTCMS
CHURCH MANAGEMENT SYSTEMS

Church Management Systems

Church Website Design Is Also Our Specialty!

- A church website has enormous potential as part of your outreach strategy to reach into your community; however, most church websites are designed entirely for their members, or exclude non-Christians because of their choice of language and content. This is the main reason why church websites fail to reach into the community.
- We'll help you to create a web site that is evangelistic and communicates with three very different target groups:
 - the church members
 - Christians moving to the area who are looking for a new church
 - non-Christians in the community
- If you are looking for a fresh church web site design, a Christian graphics designer, completely customised church or ministry website for any cause...**You can count on us!**

COUNTSOFT
MANAGEMENT SYSTEMS

Comprehensive Church Management Solution

- A web-based and yet can run as a standalone system
- Has two main modules: CountMembership and CountFinance
 - No System that looks so simple does so much!
- If you have been looking for the right system, look no further.

You Can Count on Us!

CountMembership

- A real-time web-based electronic system that manages local church membership records and then produces accurate and reliable membership statistics [on demand] at all levels of the church.

FEATURES

Multi-Congregation churches

- The System caters for churches that range from a single congregation in one location to churches that have multiple congregations with multiple structural levels in different locations provinces or countries.
- The web-enabled environment makes sure that the system is available anywhere at anytime
- The role-based security ensures that users at different structural levels can only see and work on data that is relevant to them

Members Details

- Detailed information about members including photos is stored
- Search for members using any field
- Create labels for letters and mailing lists
- Capitalize on email for rapid communication

Member Transfers

- Transfer members from one congregation to another within the same church organization
- Send requests for membership transfers from congregations outside the particular church system

Church and Member Actions

- Captures all the church board and committees actions into the system
- Action on members, e.g. suspension etc. are stored in the system
- Link certain unbudgeted expenditures to board actions that authorized them

Church Statistics

- Church statistics are automatically created based on membership actions
- Statistics on people who join the church, how and why they leave the church are also produced
- Statistics can be produced to show trends over a number of years

Small Groups

- Small groups can be church committees,

Bible study classes, Cell groups, etc.

- Any number of small groups can be created from the members and visitors
- Mailing list can be created for each small groups or a number of small groups

Audit Trail

- System keeps an audit trail for all major transactions
- Audit trail can only be viewed by the system administrator or whoever has been giving auditing privileges

Customize to Fit Your Precise Needs

- Each denomination is unique in terms of the data it records and tracks, as well as, its overall structure.
- CountCMS is completely customizable to accommodate any hierarchy or information requirements.
- You can then search and report on any segment of your organization.

CountFinance

- A real-time web-based electronic system that automates all local church treasury functions. The processing of church budgets, church expenditure, bank reconciliations, receipting of member contributions, and production of financial reports is all done in a secure web interface

FEATURES

Budgets

- The system facilitates the creation of yearly budgets for church department or ministries
- Ministries can only use funds in their approved budgets and funds that are allocated to their specific ministry

Bank Reconciliations

- Ability to capture church's bank accounts and summarized transactions
- Provides reports that seek to reconcile the system's transactions with the bank transactions

Expenditure and payments

- Payments and expenditures are made according to the approved budgets
- The proof of payment is produced by the system and stored by the finance department for auditing purposes.

Customize to Fit Your Church

- Set up for either a calendar or financial year to match your financial reporting needs.
- Allocate contributions for an unlimited number of funds (departments) everything from the general fund to designated funds such as missions or building projects.
- Combined giving records available for married couples, groups of people and business organizations.

Easy Entry and Correction of Various

- Disburses a single cheque to multiple funds easily and accurately.
- Corrects errors by reversing wrong entries and adding correct entries so contributors see only correct amounts, while maintaining the audit trail for audit purposes.
- You can access month-to-date or year-to-date information for any fund and year.

Total Integration with CountMembership

- Once a contributor's personal information is entered in Count Membership, contributions

may be entered for that person or couple.

- Statistics on contribution from the entire membership can be produced

Reports

- CountCMS offers a wide variety of standard reports and graphs – all of which may be customized per request.
- It is easy to produce accurate statements on a monthly, bi-monthly, quarterly, tri-annual, semi-annual, or annual basis.
- Analysis of average weekly contribution comparisons can be produced

Comprehensive Documentation, Support, and Training Options

- Complete how-to manual is available for printing directly from the software.
- System Support programme offering free software upgrades, unlimited access to well-trained, knowledgeable support representatives during business hours (meaning no limit on the amount of time or the number of contacts made to support each month), and the online Knowledge Base 24/7—plus much more.
- Additional training after the initial introductory training is available for a nominal fee.
